

# Affiliate Membership

The Affiliate member category was formed to:

- Increase the industry's impact through a larger and more informed membership base;
- Provide official recognition to the employees who are already making valuable contributions to the industry; and
- Provide a cost-effective and affordable membership category to increase involvement and participation at all levels of the association.

## **BENEFITS**

The Affiliate membership category allows employees of members' companies to become members of the association at a reduced rate. Both Builders and Associates can be Affiliate members. A person may ONLY become an Affiliate member through the local association of their employer. In addition, the employer must have at least one Associate or Builder member of record in active membership status. Affiliates receive their own account with access to valuable resources as well as their own directory listing. Affiliates also receive communication on upcoming events and can take advantage of discounts offered from the Member-2-Member Discount Program.

## **SPIKE CREDITS**

Short on Spike credits? Spikes receive ½ credit for recruiting an Affiliate Member and ½ credit for their renewal. This makes for a great opportunity to earn additional Spike credits.

## **JOINING**

An Affiliate membership is only \$150 for one year. Download an application from our website and get started today!

## **QUESTIONS?**

For more information about the Affiliate member category, contact [stephanie@moba.com](mailto:stephanie@moba.com).

DO BUSINESS WITH A MEMBER

---

*promote*  
your business.
